Hacienda Matapalo

Hacienda Matapalo is a lifestyle of fully experiencing living within the rainforest in a style of casual elegance with all the amenities you would hope for within the development and when you leave through the front gate having all that is wonderful about Costa Rica at your doorstep. This location is the key. The most dramatically beautiful part of Costa Rica is opening up for Development as the government is building a modern coastal highway where there has been only dirt road. This means access to 24 miles of virtually untouched beach where the mountains come down to almost kiss the sea.

"Costa Rica is back on our radar screen of excellent early-in opportunities and Hacienda Matapalo with its 665 acres of lush tropical forest, cascading waterfalls and breathtaking views of the Pacific Ocean, may be the best of Them ALL!"
- International Living Magazine

"A new coastal highway opens up for development the most dramatically beautiful part of Costa Rica."
- Smart Money Magazine

- Wall Street Journal

The Best of COSTA RICA
